

MIT Academy of Engineering (An Autonomous Institute)	CA Activity No-1(20 Marks)	
	ACADEMIC YEAR	2025-26
Alandi (D), Pune – 412105	SEM / TRI	II
DEPARTMENT OF E&TC ENGG.	CLASS & DIVISION / BLOCK	FY B.Tech-ALL

ACTIVITY NAME	NASSCOMM CERTIFICATION		
COURSE	CREATIVE TECHNOLOGIES (2301183)	Lab Activity NO.	02 (One)
COURSE INSTRUCTORS	VINAYAK KULKARNI & TEAM	DATE	25-01-2026

STUDENT NAME	Rutvik Sanjay Mhaske	PRN	202501040273
TRACK	Block chain Technology	TRACK TEACHER	Pragati Deole

Que. No.	Question Description/ Design Problem Statement	Marks	CO No.	BT Level
Q1	Please read assignment statement below , the students Online Industrial Certification Course Digital 101-30 Hours (GOI, AICTE, NASSCOMM, NSDC)submit the Reflection report in prescribed formaty (pdf) on Moodle	20	CO3	L2, L3

(Remark: Course Instructor to add assessment rubrics for each assignment)

RUBRICS:

Criteria	CO Addressed	Completion of Course (20 Marks)	Incompletion of Course(0 Marks)
Activity Completion & Reliction Report	CO3	Completion of all modules of course Digital 101-30 Hours, produced course completion report (15 Marks)	- Student not registered to course - Not completed the course - Not completed all course activities
		Produced Report and evaluated by Track Teacher (05 Marks)	Simply Not completed the course , without showing the appropriate work, which is to be graded, will also be awarded a score of "0."

ASSESSMENT:

Date	Marks (20)	Sign of Track Teacher	Name of Track

INSTITUTE LEVEL SUBMISSION LINK:

(Only Certificates)

https://docs.google.com/forms/d/e/1FAIpQLSeFatr8OUi5FJGrX5R_1-17POp0d3zLPbSMrQx0wcUDpiwTTA/viewform?usp=publish-editor

(** Every student will upload certificates in pdf with above mentioned Link)

Instructions:

1. Complete this word file Activity report Template
2. Take Hardcopy of this report, get sign & Grade (10) from Track Teacher
3. Submission on Moodle. (Pdf Format).
4. All FY students appearing for course Creative Technologies must do this submission individually.
5. Submit certificates only to institute level link
6. Submit this report to track teacher for grading

CA ACTIVITY STATEMENT

(Course Outcome (CO3)- *Illustrate the use cases of emerging technologies. [L2].*)

INTRODUCTION:

Name of Activity	Online Industrial Certification Course Digital 101-30 Hours (GOI, AICTE, NASSCOMM, NSDC)
Activity Details	Value Added Course Certifications on Future Skills or Future Technologies [Compulsory for every student] a) An Industrial Value-added course certification from Industries Agencies of repute will award 20 Marks b) For year 2025-26, A course Digital 101(30 Hours-Self Paced) hosted by Futureskillsprime Supported by Govt. of India, AICTE, NASSCOMM, SKILL India, NSDC etc. COs: CO3- Illustrate the use cases of emerging technologies. [L2] POs: PO-1, PO-06, PO-11 PSOs: PSO1 to PSO4

REGISTRATION PROCESS:

LINK: <https://www.futureskillsprime.in/journey/digital-101-30-hours/>

- ✓ Click on Enrol, You have to join with google
- ✓ Use Personal Email ID to which APAAR ID and Digi-locker is attached (Important !!!)
- ✓ Refer a separate document attached NASSCOMM Certification Process.pdf

Submission Report (Module Completion Report)

(100% Completion of all prescribed modules)

*(Attach 02 snapshots showing 100 % completion here-02 pages)
(Goto dashboard open course see list of modules completed, divide in 02 snapshots, attach here)*

The image displays two screenshots of the FutureSkills Prime dashboard, showing a list of completed modules under the 'Digital 101 - 30 Hours' course. The dashboard includes a sidebar with navigation options like Dashboard, My Products, Groups, My Ledger, Skills Passport, Transactions, and Account. The main content area lists modules with their completion status, badges earned, and a 'Retake' button.

Module 1: An Overview of Artificial Intelligence
 By: Open Internet Content | 30 hours | 54 of 54 Completed
 Badges Earned: 7 of 7 Completed
 Status: Completed

Module 2: Introduction to Machine Learning
 By: Open Internet Content | 32 minutes 38 seconds | 6 of 6 Completed
 Status: Completed

Module 3: Introduction to Deep Learning
 By: Open Internet Content | 33 minutes | 7 of 7 Completed
 Status: Completed

Module 4: VR Best Practices and Challenges
 By: Open Internet Content | 35 minutes | 6 of 6 Completed
 Status: Completed

Module 5: AI Ethics
 By: Open Internet Content | 34 minutes | 6 of 6 Completed
 Status: Completed

Module 6: Ethical Considerations of Generative AI
 By: Open Internet Content | 35 minutes | 6 of 6 Completed
 Status: Completed

Submission Report

(Certificate for Course -Digital 101-30 Hours)

Certification Procedure: [Certification based on Quiz]

- Complete all modules with 100% completion, Verify from Dashboard
- Goto site home page , Search Module “Digital 101-30 hours Assessment”
- You will Get 02 results-
 - a) Digital 101 Assessment- Mock(free)
 - b) Digital 101 Assessment- final (paid)
- Digital 101 Assessment- Mock(free)- this is practice test before you go for final assessment, this will not produce certificate
- Digital 101 Assessment- final (paid)- This final certification Quiz , You need to pay for certification like other certification exam NPTEL, CISCO
- After Completion You will get Graded certificate with Marksheet in Gold, Silver & Bronz categories in your dashboard

(Attach Certificate front side- page 01 snapshot here)

(Attach Certificate front side- page 02 snapshot here)

- 23. Applications of IoT**
- 24. Industrial Internet of Things (IIoT)**
- 25. Digital Payments**
- 26. An Overview of Cloud Computing**
- 27. Applications of Cloud Computing**
- 28. Service Models in Cloud Computing**

- 29. Popular Software Tools and Techniques in Cloud Computing**
- 30. An Overview of Cybersecurity**
- 31. Applications of Cybersecurity**
- 32. Types of Cyber Attacks**
- 33. Data Privacy and User Data Control**
- 34. Deepfake**
- 35. Evolution of Blockchain**
- 36. Getting Started with Blockchain**
- 37. Applications of Blockchain in Finance Industry**
- 38. Impact of Blockchain on Workforce and Workplace**
- 39. Getting Started with Robotic Process Automation (RPA)**
- 40. 3 Core Technologies of RPA**
- 41. Applications of RPA in Banking and Insurance**
- 42. Getting Started with Web, Mobile Development and Marketing**
- 43. 5Ds of Digital Marketing**
- 44. Digital Storytelling**
- 45. Getting Started with 3D Printing & Modeling**
- 46. Digital Manufacturing**
- 47. Future of 3D Printing & Modeling in Various Industries**
- 48. Getting Started with Augmented Reality and Virtual Reality**
- 49. Pre-requisites for AR & VR**
- 50. Metaverse**
- 51. Applications of AR & VR in Banking & Insurance**
- 52. VR Best Practices and Challenges**
- 53. AI Ethics**

54. Ethical Considerations of Generative AI

Reflection Report on Online AI courses

(Write one page report on course wise learning and your Understanding through these courses in your own language)

Course-wise Learning Report: **NASSCOM Digital 101 (30 Hours)**

In the **NASSCOM Digital 101 course**, I learned many new and interesting things about the digital world. Before this course, I only used the internet for basic things like watching videos, chatting, or playing games. But now I understand that digital technology is much bigger and more useful than I thought.

First, I learned about the basics of digital technology. This includes understanding how computers work, what software and hardware are, and how the internet connects everything. It made me realize how important technology is in our daily life, from school to communication to even shopping.

One of the most interesting parts for me was learning about emerging technologies like Artificial Intelligence (AI), Cloud Computing, and Data Science. Earlier, these sounded like very complicated words, but now I have a basic idea of what they mean. For example, AI is used in things like voice assistants and recommendations on apps. This made me more curious about how these systems actually work.

I also learned about digital skills and why they are important for future careers. The course explained that many jobs today require at least basic digital knowledge. This made me think about my future and how learning these skills now can help me later. It also motivated me to improve my computer skills.

Another important topic was online safety and digital responsibility. I learned how to stay safe on the internet, protect personal information, and avoid scams or fake content. This is something I think everyone should know, especially students like me who use the internet daily.

The course also talked about communication and collaboration using digital tools. I understood how people work together online using platforms for meetings, sharing files, and teamwork. This showed me how technology helps people connect even if they are far away.

Overall, this course was very helpful and interesting. It changed the way I look at technology. Now I don't just use it for fun, but I also understand its importance and

how it can be used for learning and building a career. I feel more confident about using digital tools and excited to learn more in the future.
